About Us

ADF Consulting, Inc. is a Georgia-based, minority-owned construction and strategic procurement firm supporting U.S. federal, state, and local agencies, as well as select commercial clients. Founded in 2022, the firm delivers end-to-end construction services across structural, MEP, and interior finishing trades, operating as both a prime contractor and specialty subcontractor. ADF Consulting also bridges high-quality South Korean manufacturing with U.S. government and military standards to provide compliant, affordable, and mission-ready solutions through disciplined execution and strong supplier partnerships.

Past Performance

- 
Hankook Tire
Date: Jan 2025–Sep 2025 | **Value:** \$280K
Details: Wire pulling and switchboard integration; trans-Pacific supply chain coordination.
- 
SK Battery (Kingston)
Date: Oct 2025 - Nov 2025 | **Value:** \$350K
Details: Installed high-durability industrial epoxy flooring meeting stringent technical specifications.
- 
Hyundai Mobis (Savannah)
Date: Jan 2024–Jan 2025 | **Value:** \$155K
Details: Managed jobsite safety programs and documentation, ensuring full OSHA & site compliance.

Core Services

- Commercial & institutional building construction
- Structural steel and concrete systems
- Electrical, plumbing, & mechanical (MEP) infrastructure
- Drywall, insulation, and interior framing (wood & metal)
- Finish carpentry and architectural interior finishes
- Tile systems and specialty interior installations
- Tenant improvements and facility renovations
- Affordable Korean products for U.S. federal procurement
- Materials and PX supply for U.S. military installations
- Pre-construction planning and constructability review
- Project management & turn-key construction delivery

Differentiators

- **Korea-U.S. Advantage:** Direct manufacturer partnerships eliminate middlemen, reduce cost, and ensure quality.
- **Multi-Trade Execution:** Self-performed specialty trades streamline coordination and accelerate delivery.
- **Global Logistics Precision:** Reliable end-to-end logistics supporting U.S. and OCONUS missions on time and on budget.
